Applicants must choose up to a maximum of 5 Bachelor's degree programmes (Engineering) and rank them in order of preference in the "Select your programme" section.  
**They are allowed to change the order of preference, add new programmes or substitute a programme not later than Friday 28th August 2020 and in any case before starting the enrolment process.**

#### **Article 9 (How lists and ranking lists are made)**

1. For the purposes of defining the ranking lists, the following student categories have been given the following meaning:  
**Quota students:** non-EU students who reside outside Italy and have a non-Italian educational qualification  
**European Union students:** Italian citizens, or other EU nationals  
**Equivalent students:**
  - students from Norway, Iceland, Lichtenstein, Switzerland and San Marino
  - non-EU nationals legally residing in Italy with a valid residence permit for study, work or family reasons;
  - political refugees;
  - staff members of Foreign Diplomatic Missions (Embassies/Consulates) and International Organizations based in Italy, legally accredited to the Italian Government or to the Holy See (including family members: spouse and children);
  - non-EU nationals legally residing in Italy or diplomats who have an Italian high school diploma obtained in Italy or abroad (Law no. 189/2002).
2. The list referred to in article 7, paragraph 1, letter a) include the applicants who have the right to enrol in the programme of their first preference (ranked according to their TIL-I score) and the applicants who have been exempted from taking the TIL-I test within the meaning of article 11, paragraph 1.
3. The ranking lists referred to in article 7, paragraph 1, letter b) are made with the following criteria:
  - a. one single ranking list for all Bachelor's degree programmes of the Engineering area;
  - b. applicants are ranked in descending order based on their TIL-I score;
  - c. in case of equal ranking, the score obtained in the individual sections that make up the TIL-I test shall prevail, considered in the following order: Mathematics, Verbal comprehension, Physics and Logic. In case of a further equal ranking, the younger applicant will be chosen.
4. The ranking lists referred to in paragraph 3 classify prospective students into the following categories:

- ENROLLED STUDENT: a student who has completed the first phase of online enrolment (as stated in article 12);
- ASSIGNED STUDENT: a student who **MUST** enrol in the Bachelor's degree programme which has been assigned to him/her; failure to enrol by the deadline will result in the allocation of his/her place to another applicant – **therefore, failure to enrol by the deadlines entails permanent renunciation of the place.**
- BOOKED STUDENT: a student who can enrol in a programme that is not the programme of his/her first preference. This student is also on the waiting list for one or more programme/s with higher preference. In this case, the student **CAN** either:
  - enrol in the programme that has been assigned to him/her and automatically give up the other preferences;
  - wait for the next call/s after the ranking list updates.
- STUDENT ON WAITING LIST: a student who has not been offered a place in any degree programme that he/she had chosen during the application process, but could be offered a place in a non-saturated degree programme in the next call/s. This student must wait for the next the call/s.
- INTERNAL TRANSFER NOT ALLOWED: a student currently enrolled at Politecnico who took the TIL-I test in order to transfer to another programme but has not been included in the ranking list for admission to the new programme.
- STUDENT ADMITTED TO YEAR 2 OR BEYOND: a student currently enrolled at Politecnico or at another Italian university, who took the TIL-I test and has been ASSIGNED a student place for admission to year 2 or beyond – after the evaluation of his/her previous academic records.
- RENUNCIATION OF WAITING LIST: a student who did not declare that he/she was interested in remaining on the ranking list by the deadlines of article 7, paragraph 3; or else, a student who explicitly renounced his/her right to be on the waiting list (article 10, paragraph 3).
- RENUNCIATION OF ENROLMENT: a student who has been ASSIGNED a place but has failed to enrol in the programme by the deadline.
- NOT ADMITTED STUDENT: a student who has not reached the minimum admission threshold in the TIL-I test.

#### **Article 10 (How ranking lists are updated)**

1. The students included in the ranking lists referred to in article 7, paragraph 1, letter b) are assigned a place according to their preferences, starting from the first preference and within the limit of available places, using the following criteria:
  - a. when available, the applicant is offered a place in the programme chosen as the first choice (ASSIGNED student);
  - b. if the applicant's first choice is not available, the next choices are taken into consideration, until a programme with at least one available place is identified. In this case, the applicant is offered the possibility to enrol in that programme. As far as previous choices are concerned, the applicant is placed on waiting list (BOOKED student), unless all programmes with higher preferences are full (in this case the applicant will be ASSIGNED a place in the first programme with available places);
  - c. if the applicant cannot be offered a place in any Bachelor's degree programme chosen during the application process, the applicant will be offered a place in an Engineering programme that has residual places (if any); in particular, the applicant will be assigned a place in the Bachelor's degree programme that pertains to the same field of study of his/her first choice and has the smallest ratio between the number of applications and the number available places. If there are no places available in any degree programme pertaining to the same field of study of the applicant's first choice, the applicant will be offered a place in the programme that pertains to the field of study of his/her second choice and has the smallest ratio between the number of applications and the number of available places. If the applicant cannot be offered a place in any programme pertaining to the fields of study chosen during the application process, the applicant will be assigned a place in the programme with the smallest ratio between the number of applications and the number of available places.

The fields of study are the following: Biomedical Engineering, Chemistry and Materials Engineering, Construction and the Environment, Energy Engineering, Management and Mathematics, ICT,

Mechanical and Aerospace Engineering. The fields of study are listed on the University website – <https://didattica.polito.it/offerta/> (Bachelor's degree programmes section)

- d. if all places have been already assigned, the applicant must wait for the next call/s (student ON WAITING LIST). He/she could be offered a place in a non-saturated programme in the next calls.
2. Allocations of places to applicants included in the ranking lists referred to in article 7, paragraph 1, letter b) are based on further updates of the ranking lists which take into account the number of students who enrol before the deadlines of article 12.
3. The applicants included in the ranking lists referred to in article 7, paragraph 1, letter b) who are no longer interested in enrolling at Politecnico di Torino and **intend to renounce their right to be on the waiting list**, can do so from the Apply@polito platform; when an applicant renounces his/her right to be on the waiting list, he/she irrevocably gives up his/her position on the ranking list; therefore his/her student place is assigned to another applicant on the ranking list.
4. The ranking list for EU, equivalent and quota students will be closed on **Friday 23rd October 2020**. This means that after this date the ranking lists will not be updated and there will not be any new call.
5. After the ranking list closing date, **and in any case not later than Monday 16th November 2020**, new places might become available compared to the total number of places announced in article 1, paragraph 1 (as a consequence of students who have not enrolled). These potential new places will be offered to the applicants who had chosen a specific programme as their first preference, but have already enrolled in another programme of lower preference. In this case, if the student accepts this offer, he/she will be automatically transferred to the new programme and will see this change on his/her personal page of the Teaching Portal – Online Services section – Changing Bachelor's degree programme.

**Article 11  
(Exemptions from the TIL-I test)**
