Why choosing this master?

The world is changing rapidly and the ability to anticipate risks and provide effective solutions to face the effects of climate change is more important than ever.

The second edition of the 2nd level Specializing Master's Programme "Climate Change: adaptation and mitigation solutions" represents a unique opportunity for students and professionals with a scientific and/or technical background to:

1. Acquire a full understanding of the dynamics underpinning the ongoing global warming and the associated climatic changes as well as quantifying their impact on the natural and built environment.
2. Receive a complete and detailed overview of the technologies that will drive the transition towards decarbonization in key sectors (e.g. energy, transport, agriculture) and explore how to apply these solutions in real-world situations.
3. Profit from a think-tank environment promoting the exchange of ideas and expertise with researchers from top-level universities and top managers from the private sector.
4. Gain practical experience in a well-established network of important companies engaged in the implementation of sustainability strategies in the field of energy production, food production & processing, and service – provision.

FOR THE
WORLD

Programme structure

The 2nd level Specializing Master's Programme in "Climate Change: adaptation and mitigation solutions" is a 1-year programme scheduled from January to December 2021, full time from Monday to Friday. It combines 4 taught modules including frontal lectures, lab activities and hands-on tutorials (from January to July), followed by a 500-hour internship in one of the partner companies (between September and November). The award ceremony will be held in December 2021. The successful completion of the Master's Programme will provide students with 64 ECTSs.

The programme is articulated as follows:

Module 1: Preliminary Courses (110 h)

An Introduction to Climate Change 30h
 Earth Observation and Climate Monitoring 30h
 Climate Policy, Economics and Finance 30h
 Energy Transition and Global Sustainability 20h

Module 2: Climate Change Mitigation (140 h)

Carbon Capture and Negative Emission Technologies 25h
 CO2 and H2 Underground Storage 20h
 Carbon Footprinting and Carbon Trading 25h
 Sustainable Transport Systems 25h
 Energy-Efficient Buildings 25h
 Renewables 20h

Module 3: Climate Change Adaptation (110 h)

Climate-Resilient Cities and Communities 30h
 Coping with Extreme Events 30h
 Food-Water Nexus in a Changing Climate 30h
 Resilient Infrastructure Systems 20h

Module 4: Corporate Approaches to Climate Change (100 h)

Sustainable Management 20h
 Corporate Social Accountability 20h
 Green Procurement and Sustainable Supply Chain 20h
 Climate-Change Compliance Reporting and Communication 20h
 Eco – Innovation and Social Entrepreneurship 20h

1 - week workshop with partner companies and site visits

Internship 500h

Our partners

A strong corporate partnership has been ensured through the involvement of a number of relevant stakeholders. Stakeholders will have slots to explain how their company deals with climate change and some of them will host Master students for their internship period. Top managers from the partner companies will also be involved in the relevant modules.

Career opportunities

About 24 million new jobs will be created globally by 2030 if the right policies to promote a greener economy are put in place¹. Already now, in October 2019, the number of open job positions including the keyword “climate change” is 3,000+ in EU and 11,000+ globally (Source: LinkedIn).

Most of these positions are open to graduate candidates only. This Master programme helps students and professionals to enter this market offering a specialized training suitable for executive positions as climate-change specialists in the innovation and sustainability departments of companies and organizations. These include companies dealing with: infrastructure-resilience and energy transition issues, urban planning and development, insurance and finance, research and development of innovative environmental technologies, certification companies, academic and/or research institutes, government agencies, international organisations and NGOs.

¹Greening Jobs: World Employment Social Outlook 2018”, International Labour Organisation

“We can fight climate change and create millions of good, green, union jobs in the process”
10/09/2019

The Guardian

“A novel European Green New Deal to tackle climate change”
8/10/2018

Social Europe

“Technological change via energy efficiency in manufacturing is an engine of growth”
05/2016

Energy Policy, Elsevier

“Job prospects vary by country, but most forecasts suggest strong growth internationally throughout the green-building sector.”
25/02/2015

Admission requirements

Applicants must hold a full degree (Master of Science degree/Laurea specialistica/Laurea magistrale) by the enrolment deadline in order to be admitted to this 2nd level Specializing Master's Programme. The programme is intended for graduates who completed a Master's degree course (or equivalent) in the following areas:

- Engineering
- Architecture
- Geography
- Science and Technology
- Agricultural sciences
- Mathematics
- Physics
- Biology
- Chemistry
- Economics
- Geoscience
- Computer science

All applicants must prove to have good proficiency in English. Please refer to the Call for applications for details.

The selection will be based on:

- motivation letter and academic background, including a summary of the Master Thesis
- significance and coherence with the Master's topics of the professional and formative experience.
- interview of the short-listed candidates.

Timeline

Application submission by mid-October 2020

(please check the website and the call for applications for the exact deadline)

Start of the programme: January 2021

Award ceremony: December 2021

Tuition fee and waivers

The participation fee is 4,000 euro for the entire year.

The participation fee includes lectures, didactic materials, and technical visits.

PoliTo will offer two types of merit waivers:

- 10 waivers of 4,000 euro each (covering the entire participation fee).
- 10 waivers of 2,000 euro each (covering 50% of the participation fee).

For further details on waivers please refer to the Call for applications.

Studying at PoliT0

For more than 150 years, Politecnico di Torino (PoliT0) has been an Italian and world-leading institution in education, research, technological transfer, and services in all sectors of architecture and engineering.

Currently, PoliT0 ranks among the top 20 European technical universities for education and research in engineering and architecture.
