

You can take the English level test from home using the virtual LAIBs (vLAIB)

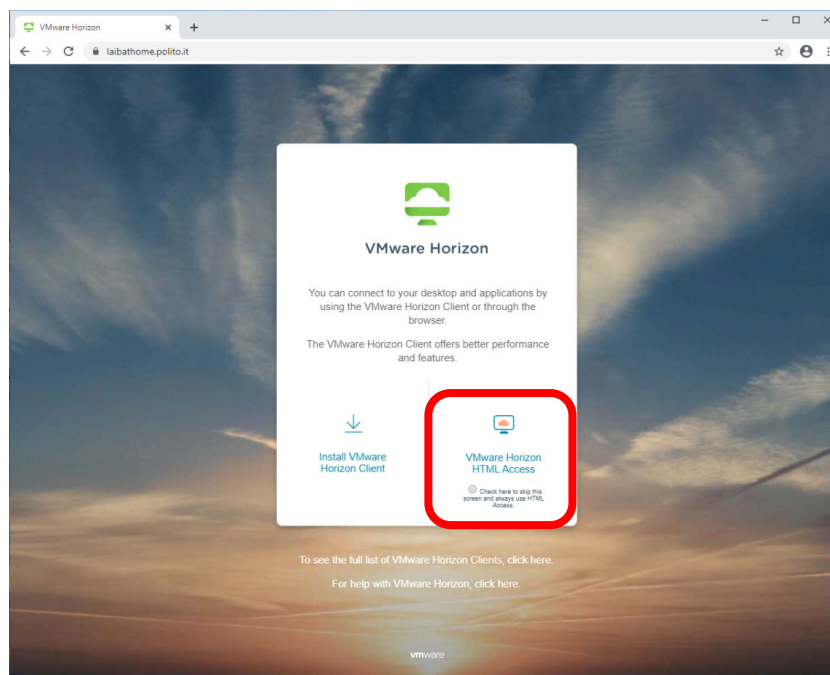

What are the virtual LAIBs (vLAIB)?

Students can connect from their PC to the virtual LAIB to use software which cannot normally be installed on their PC, for reasons of license, compatibility or performance.

How to connect to the virtual LAIB

To access to the virtualisation system using your own internet connection or Politecnico Wi- Fi network you must go to: <https://virtualpc.polito.it> using an updated browser.

Select the following option: “VMware Horizon HTML Access”

Log in with your PoliTo credentials:

- For teaching staff/administrative and technical staff: [name.surname@polito.it](mailto:nome.surname@polito.it)
- For students: [s + student number@studenti.polito.it](mailto:s+student_number@studenti.polito.it)

VMware Horizon

nome.cognome@polito.it

Login

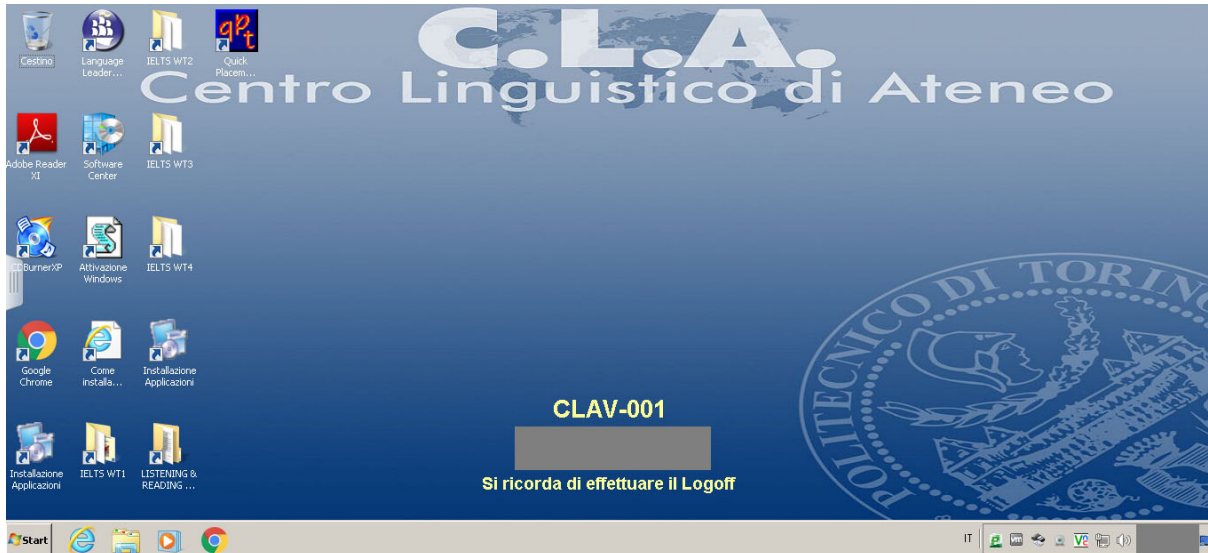

Cancel

Select "VCLA-F" among the Pools:

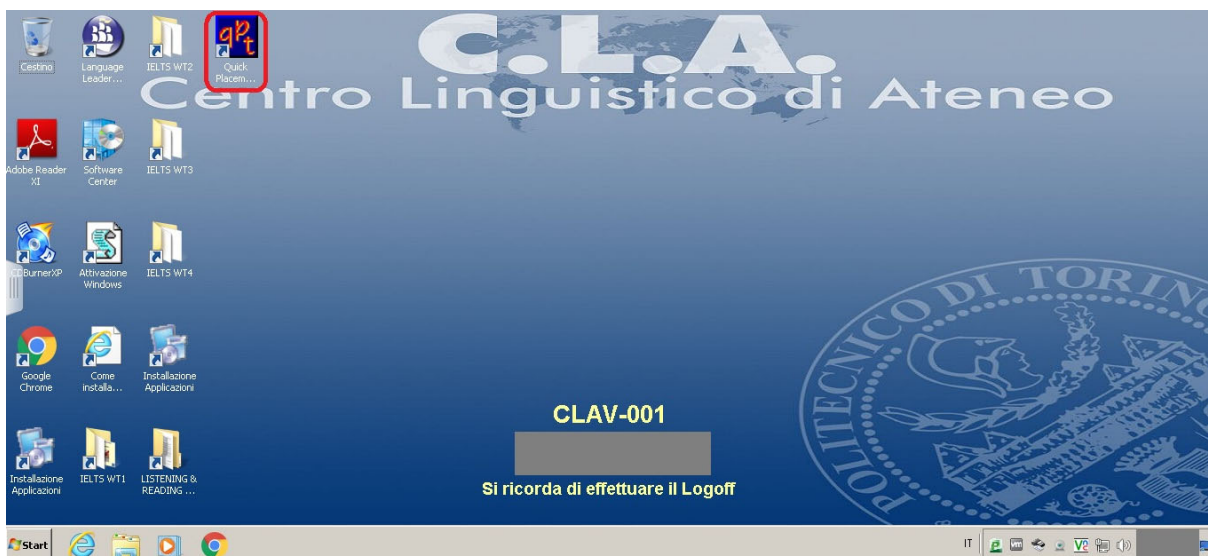

Wait for the Desktop to load (Ignore possible error messages regarding the recycle bin on V:\ drive)

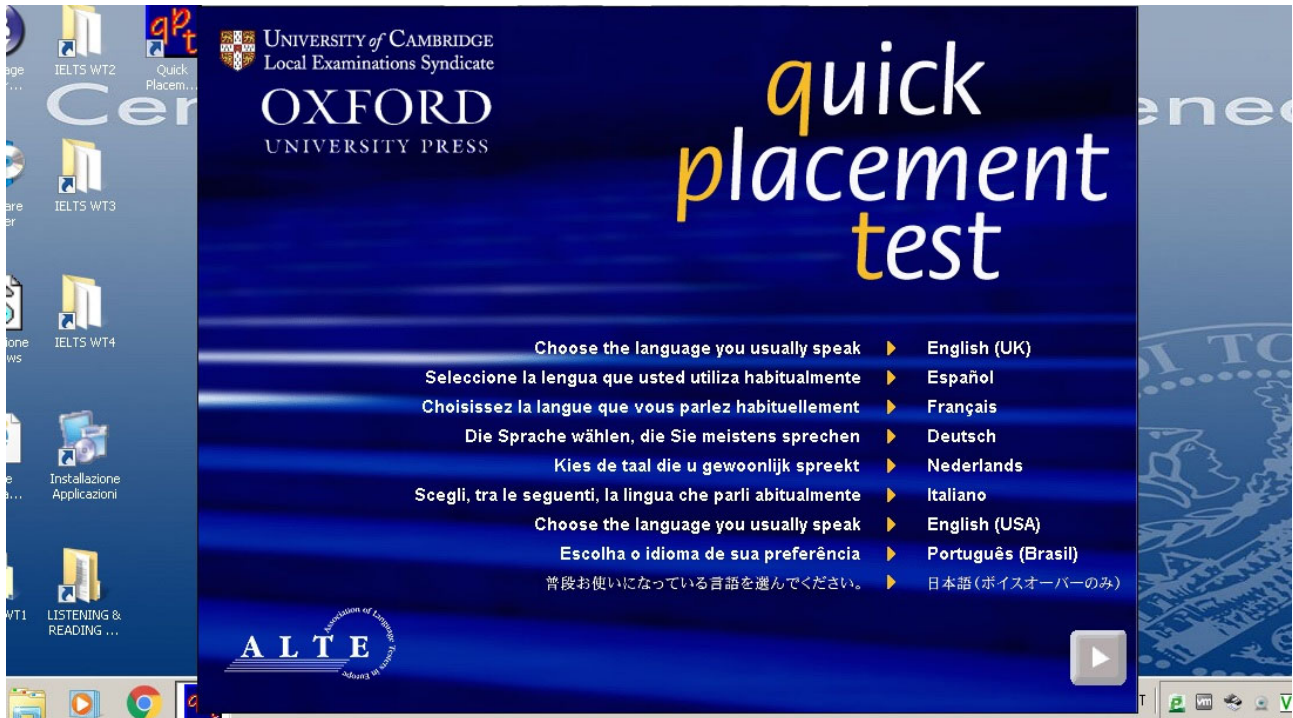

Select the "QUICK PLACEMENT TEST" icon

Select the language you usually speak

In the first field (“Cognome/ Surname”) enter your family name with your student number (e.g. s123456 Smith) and in the second field (“Name/Nome”) enter your first name

Please complete this registration form:

Click on the green forward button when you have completed the form.

Family name First name

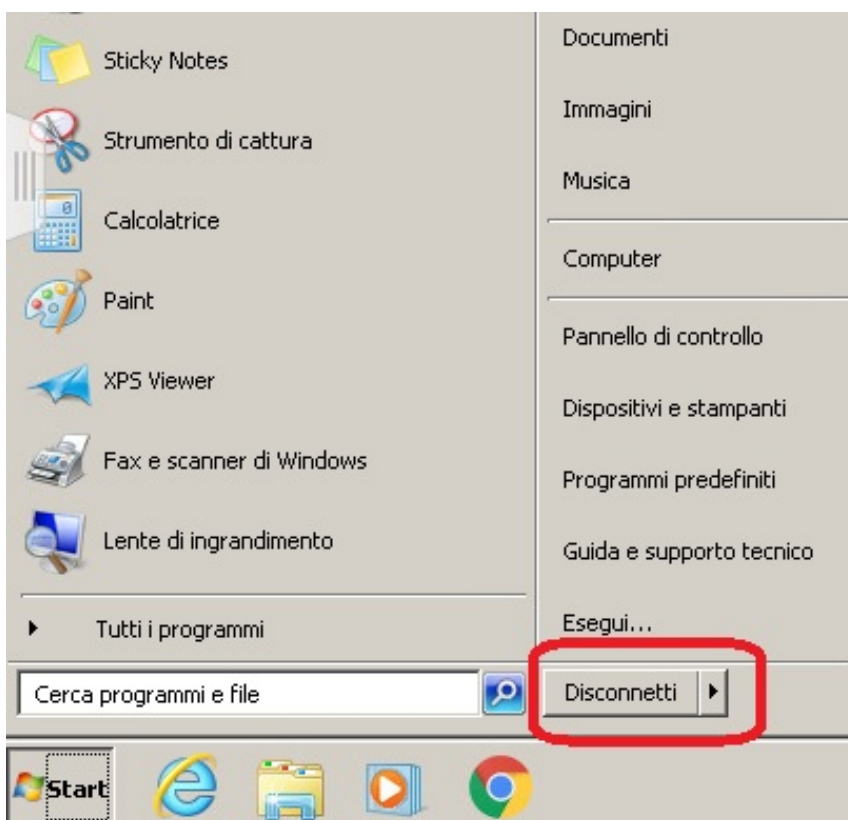

Please note: do not click the yellow question mark during the test

When the test is over, please click "EXIT". You can check your test score on your personal page of the Teaching Portal - "Languages/Lingue" tab the day after the test.

How to quit the virtual LAIB correctly:

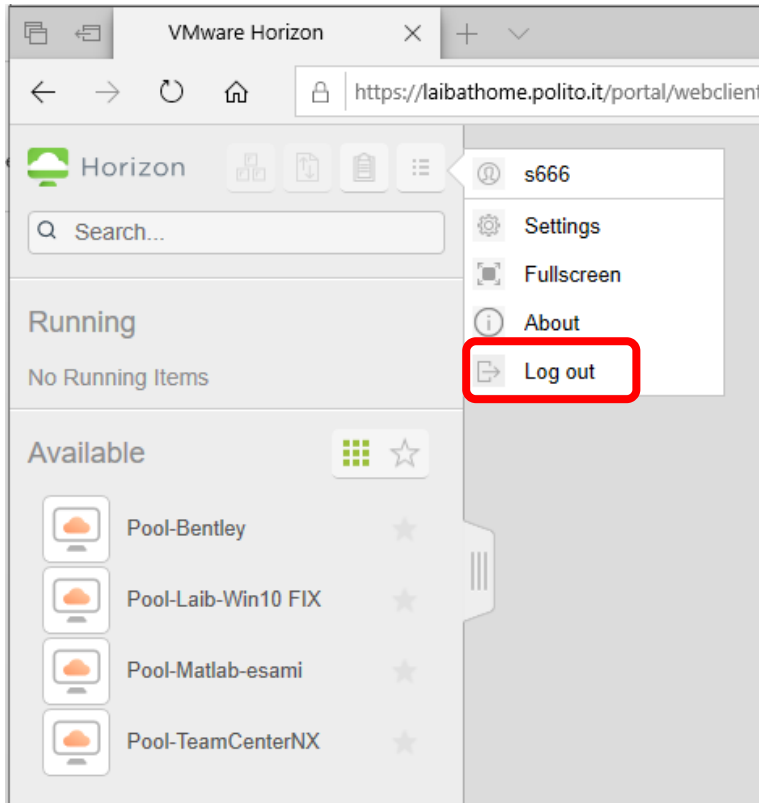

Since resources are limited, it is important that you quit the virtual LAIB when you finish your test so other users will be able to use it.

When you finished using the computer **FIRST** disconnect your user (Start – Disconnect)

THEN log out from the virtualisation environment:

Please note: Active sessions disconnected without proper logout are automatically ended after 10 minutes
