THESIS CONCLUSION CONFIRMATION

Sustainable Development Goals - SDGs *

On 25 September 2015, the United Nations approved the Global Agenda for Sustainable Development and its **17 Sustainable Development Goals (SDGs)**, articulated in **169 Targets to be reached by 2030**. It is an historical event, because a clear judgment has been expressed on the unsustainability of the current development model, not only on the environmental level, but also on the economic and social one. (<https://www.campus-sostenibile.polito.it/sdgs>).

Sustainable Development Goals - SDGs *

The 2030 Agenda for Sustainable Development is a plan of action adopted by the governments of 193 UN member States in September 2015. The 2030 Agenda includes 17 strategic objectives for sustainable development (the so called "Sustainable Development Goals", SDGs) into a wider programme of action of 169 targets. Each SDG represents a common global goal that addresses crucial development issues for the world such as ending poverty and hunger, fighting climate change, to name just a few of them (<https://unric.org/it/agenda-2030/>). The world officially began implementation of the SDGs in January 2016 with the objective of reaching the targets by 2030.

Politecnico di Torino intends to acknowledge the work of students who decide to study the issues of the 2030 Agenda. For this reason, students can choose one or more SDGs that can be associated with their Master's thesis. Please select the most relevant SDG (and max. two secondary SDGs) that you want to link to your thesis. If the content of your thesis is not directly connected to any target of the SDGs, please select "NON APPLICABILE".

Main SDG *

Secondary SDG *

Secondary SDG *

Choose one or more **SDGs** that can be associated with their Master's thesis. Please select the most relevant SDG (and max. two secondary **SDGs**) (that you want to link to your thesis. If the content of your thesis is not directly connected to any target of the SDGs, please select "NON APPLICABILE")

During the approval process the supervisor can modify it/insert the **SDGs**

The chosen **SDGs**, during the thesis conclusion confirmation, will be visible on webthesis, together to the Thesis file, after graduation

THESIS CONCLUSION CONFIRMATION

If necessary, you can request the thesis confidentiality, check the box «**I DO NOT AUTHORIZE**».

Thesis withhold request

I DO NOT AUTHORIZE Politecnico di Torino to make my thesis available for consultation through the Central Library

Thesis withhold request

I DO NOT AUTHORIZE Politecnico di Torino to make my thesis available for consultation through the Central Library

FOR THESE REASONS:

- Need to avoid disclosure of potentially patentable results contained within the thesis in order to preserve the novelty requirements necessary for patenting;

- Editorial Publication ;
- Public security (the content of the thesis may somehow threaten public or national security);;
- Privacy (the content of the thesis relates to a person who is still alive or recently deceased and there is a risk of privacy violation).;

Please choose a licence for your thesis distribution

- Attribution CC BY:** This license lets others distribute, remix, tweak, and build upon your work, even commercially, as long as they credit you for the original creation. This is the most accommodating of licenses offered. Recommended for maximum dissemination and use of licensed materials.
- Attribution-ShareAlike CC BY-SA:** This license lets others remix, tweak, and build upon your work even for commercial purposes, as long as they credit you and license their new creations under the identical terms. This license is often compared to "copyleft" free and open source software licenses. All new works based on yours will carry the same license, so any derivatives will also allow commercial use. This is the license used by Wikipedia, and is recommended for materials that would benefit from incorporating content from Wikipedia and similarly licensed projects.
- Attribution-NoDerivs CC BY-ND:** This license allows for redistribution, commercial and non-commercial, as long as it is passed along unchanged and in whole, with credit to you.
- Attribution-NonCommercial CC BY-NC:** This license lets others remix, tweak, and build upon your work non-commercially, and although their new works must also acknowledge you and be non-commercial, they don't have to license their derivative works on the same terms.
- Attribution-NonCommercial-ShareAlike CC BY-NC-SA:** This license lets others remix, tweak, and build upon your work non-commercially, as long as they credit you and license their new creations under the identical terms.
- SCelta Consigliata Attribution-NonCommercial-NoDerivs CC BY-NC-ND license.** This license is the most restrictive of the six main CC licenses, only allowing others to download your works and share them with others as long as they credit you, but they can't change them in any way or use them commercially.

Norme di comportamento Cerimonia di Laurea

- L'esame finale di Laurea (discussione) e la cerimonia di proclamazione rappresentano sia per voi e le vostre famiglie sia per l'Ateneo un momento di grandissimo valore.
- È nostro dovere cercare di tutelare questo valore ricordandovi alcune semplici norme di comportamento alle quali vi chiediamo di attenervi e di far attenersi i parenti e gli amici che inviterete ad assistere alla discussione ed alla proclamazione, inoltre dato il numero limitato di posti vi chiediamo di mantenere il numero delle persone che intendete invitare entro i limiti della ragionevolezza selezionando coloro che davvero vi hanno sostenuto in questi anni di studio.
- Durante la discussione vi preghiamo di limitare l'ingresso e l'uscita dall'aula nei momenti di cambio dei candidati, recando il minor disturbo possibile. Durante la cerimonia di proclamazione il pubblico è pregato di rimanere seduto e di seguire le indicazioni date dal Presidente. Inoltre, per ragioni di sicurezza è vietato rimanere in piedi ostruendo i corridoi e le vie di fuga e rimanere negli atri e scale dopo l'apertura dell'aula.
- Le manifestazioni di apprezzamento e congratulazione ai proclamati devono essere consone all'importanza e al valore del momento, ricordando sempre che ci si trova in un'aula universitaria.
- È assolutamente vietato portare e depositare presso i desk di accoglienza e nei locali in cui si svolge la discussione e la proclamazione di laurea, bagagli, borse, cibo e bevande, e in generale imbrattare muri e arredi: se ciò dovesse capitare il servizio di vigilanza è autorizzato a chiedervi le generalità per poter successivamente valutare eventuali sanzioni.
- E, altresì, vietato organizzare rinfreschi di laurea negli atri e nei cortili.
