A photograph of three people standing on a dark, rocky ridge at night, looking up at a vibrant, colorful view of the Milky Way galaxy. The galaxy's core is a bright, pinkish-purple, and it fans out into a dense field of stars that transition from yellow to blue as they move away from the center. The people are silhouetted against the bright light of the galaxy. The person on the left is a woman with long hair, the person in the middle is a man with a backpack, and the person on the right is a woman with a shoulder bag. The foreground is dark and rocky, and the background is the vast, star-filled sky.
