- Biology
- Chemistry
- Environmental Management (only available at AS level: it's necessary to get another AS to reach an A level)
- Physical Science
- Physics
- Business
- Economics
- Applied Information and Communication Technology
- Computer Science
- Computing
- Design and Technology
- Information Technology

A LEVEL SUBJECTS LIST

The Politecnico di Torino, in compliance with the principles of universities self-government, has determined that the A Level in ITALIAN cannot be considered as one of the subjects necessary to fulfill the course requirements to enter the chosen program. Said A Level is valid as a substitute for the Italian Language certificate (B1 level) when required as language requirement to enroll for the chosen program.
