   - 20 abstract reasoning (logic) questions
   - 16 history questions
   - 10 design and representation questions
   - 12 mathematics and physics questions

   - 0 points for each unanswered question

3. Candidates who obtain <u>a minimum score of twenty (20) points</u> and fall within the total programmed number of students are eligible for admission to the Bachelor's degree course in Architettura-Architecture. http://attiministeriali.miur.it/media/280172/allegato_b.pdf

Art. 7
(Exemption from the admission test)
1. No candidates can be exempted from sitting the admission test.

Art. 8
(Procedure for the admission test)
1. The Italian Ministry of Education, University and Research (MIUR) avails itself of the cooperation of CINECA (*Consorzio Interuniversitario*) for the on-line registration for the test, for the preparation and correction of individual envelopes containing the material for the admission test, and for the calculation of the score.
2. Each candidate, after entering the classroom, will be given an envelope, containing:
    a. a personal data sheet without any kind of identification code;
    b. the questions of the admission test, with the identification code of the envelope;
    c. an answer sheet, with the same identification code of the envelope;
    d. a sheet of paper with the identification number of the envelope, the indication of the University and the name of the degree course for which the admission test is taken.
3. Should it become necessary to substitute during the test either one of the documents mentioned under points b) and c), the entire envelope will have to be replaced, since these documents are marked with the same identification code of the envelope.
Possible marks or corrections made by the candidate on the personal data sheet will not entail the substitution of the sheet itself.
The personal data sheet is replaced only when the identification of the candidate is not clear. In this case, the Committee will substitute the personal data sheet with a new one, taken from extra envelopes; this operation will be recorded in the classroom report. The substitution of the personal data sheet never entails the substitution of the entire envelope.
4. In order to take the admission tests, students should know the following information:
    a. As of 4th July 2016 and up to 26th July 2016 candidates register for the admission test only by following the on-line procedure available on the portal www.universitaly.it.
    The registration is completed according to the procedure mentioned under Paragraph 2.b of Article 3.
    b. Candidates will have to take the test in the university campus they have chosen as their first preference for enrolment. No exception is allowed with regard to the location where students can sit the test.
    c. Enrolment in the degree course is determined on the basis of the position that candidates reach in the merit ranking for the allocation of places. Such ranking is made according to the number of available places and the preferences expressed by candidates.
    d. In case the admission test takes place in more than one classroom, candidates are allocated on the basis of their age, except for twins.
    e. In order to fill in the answer sheet, candidates must use a black pen, provided by the University.
    f. It is strictly forbidden to bring into the classroom: mobile phones, PDAs (handheld computers), smartphone or similar devices, manuals, school books, handwritten notes and consultation material.
    g. Students must absolutely fill in and sign the personal data sheet and the statement of truth mentioned under point j) when turning in their answers at the end of the test.
    h. Students have the possibility to correct one and only one wrong answer, in order to do that, they have to fully blacken the tick box that was originally marked and choose a new tick box. In any case, in order to be assigned a valid score for the answer, only one of the five tick boxes must be marked with a cross.

i. In the answer sheet, for every question there is a small circle. Students must cross it in order to notify that they do not intend to answer that question. Once the circle has been crossed, it can no longer be modified. If candidates do not provide any answer to the question, even if they do not cross the circle, the answer is considered as unanswered.

j. At the end of the admission test, candidates are invited to reach a dedicated desk, located at appropriate distance from the Committee, where they have to choose a pair of adhesive labels. First of all, candidates must verify the conformity of the two alphanumeric codes on the labels and then stick one label on the answer sheet and the other label on the personal data sheet. In the footnote of the personal data sheet, candidates must sign the statement of truth of personal data and conformity of the label codes stuck on the personal data sheet and the answer sheet. At the end of these operations, candidates must insert the personal data sheet in the sealed container on the dedicated desk and then move to the Committee's desk where they have to insert the answer sheet in another sealed container.

5. Please note that the admission test is considered void if:
   1) candidates sit the test in a different classroom from the one they have been assigned to, unless this change is approved by the Committee and formally recorded in the report;
   2) candidates bring into the classroom: mobile phones, PDAs (handheld computers), smartphone or similar devices, manuals, school books, handwritten notes and consultation material;
   3) candidates or Committee members put their signature or any mark on the answer sheet;
   4) candidates fail to sign, in the footnote of the personal data sheet, the statement of truth of personal data and conformity of label codes.

   In these cases, the test is declared void by the Committee. In cases mentioned under points 1),2) and 3) CINECA will not calculate the test score. In case 4), CINECA will not match the answer sheet and the personal data sheet of the void test.

Art. 9
(How the rankings are made and published)

1. Given that the evaluation of the admission test will be based on the criteria referred to in Article 5, please note that:
   - in case of equal ranking, the score obtained in the individual sections that make up the admission test shall prevail, considered in the following decreasing order: abstract reasoning, general knowledge, history, design and representation, physics and mathematics.
   - in case of a further equal ranking, the younger candidate will be chosen.

2. As of 22nd September 2016, CINECA, on behalf of MIUR, will publish exclusively the scores obtained by candidates showing a list with their label codes. The results will be published on the web site http://accessoprogrammato.miur.it, in compliance with the provisions on personal data protection. These data will be available in the candidates' restricted area of the web site until the end of operations.

3. On 29th September 2016 candidates will be able to see their answers, their score and their personal data sheet on the restricted area of the Universitaly portal. Images of the test and personal data sheets can be downloaded from the web page.

4. The national merit rankings (with candidates' names) for the admission to the Bachelor's degree course in Architettura-Architecture will be published on 4th October 2016 on the restricted area of the Universitaly portal and notified to Politecnico.

5. The ranking referred to quota students, which takes into account the number of quota places reserved to those students, is determined by Politecnico and will be published on the web site: http://orienta.polito.it/

6. On 4th October 2016, both rankings will be published on the web site of Politecnico: http://orienta.polito.it/ and on the candidate's personal page on Apply.

7. The publication of the rankings is the official notification of results. The results of the competitive examination will not be notified on the phone.

Art. 10
(Enrolment in degree courses)

1. Every time there is a change in the rankings and a new call is made:
   a) if the candidate falls under the number of places available related to his/her first useful choice, he/she will be **ASSIGNED** to it and **must enrol at the university campus and for the course he/she has been ASSIGNED to.** Enrolment must take place within the deadline indicated in annex 2, paragraph 10 of Ministerial Decree No. 546/2016. Once the deadline has expired, the candidate loses the right to enrol, whatever the reason brought forward as a justification.
   b) if the candidate cannot be included in the number of places available related to his/her first useful

choice, he/she will be **BOOKED** for those courses that were chosen as following choices. In this case the candidate has the possibility to enrol at the university campus and for the course to which he/she has been booked (choices following the first) within the deadline indicated in annex 2, paragraph 10 of Ministerial Decree No. 546/2016; **or** he/she can wait for the next call. When the registration of students with better ranks standing has ended, new places for courses with higher preference might become available. When the candidate decides to enrol at the university campus for which he/she has been booked, the other choices of preference will automatically be cancelled.

2. Having regard to the merit rankings and the number of places available at each University, the names of **ASSIGNED** and **BOOKED** students for the campus and courses of first useful choice will be published on **4th October, 2016** on the students' restricted area of the web site. The list of admitted students will also be notified to each University.

Art. 11
(On-line Enrolment/Immatricolazione on line - IOL)

1. Applicants that under provision of the previous Article 10 are placed in the ranking as assigned student or booked student can enrol thorough the on-line procedure called "IOL" (in Italian), with simultaneous payment of the first instalment of the tuition fees, except for the exemption cases provided for by the 2016/17 Fee Regulations, specifically issued with Rector's Decree No. 178 dated 3rd May 2016.

Art.12
(Ranking change schedule and deadlines for enrolment)

1. The admission and enrolment process for EU citizens and equivalent students referred to in Article 2 is based on the rankings of the candidates in accordance with the following phases and rules:

e) On 11th October 2016, once all notifications mentioned under point c) have been received, CINECA will publish a new ranking, following the procedure illustrated under points b), c) and d). This will be done having regard to the position in the rankings and the preferences expressed by candidates.

f) Subsequent changes in the rankings will take place by repeating the procedure and schedule established under points b), c) and d), until a ministerial provision is issued to close the rankings.
